

OMi Introduces the

Immersive Learning Zone

that is....

Motivational
Transformational
Autonomous
Inclusive
Creative
Engaging
Cross-curricular
Fun
Collaborative
Immersive Learning

created using wordle.net

What is it?

The OMi Immersive Learning Zone incorporates a variety of gesture-controlled technologies to inspire curriculum delivery, development and creativity. Combining the interactive projection and response systems of omiVista, omiReflex and omiBeam, together with interactive plasma screens and colourwash lighting, the OMi Immersive Learning Zone can be adapted to meet the needs of individual establishments and provides a wide range of curriculum opportunities for teachers and learners. The OMi Immersive Learning Zone provides an engaging interactive environment that employs stunning visual and multimedia effects, leading to hours of fun-packed learning through exploration, discovery and play.

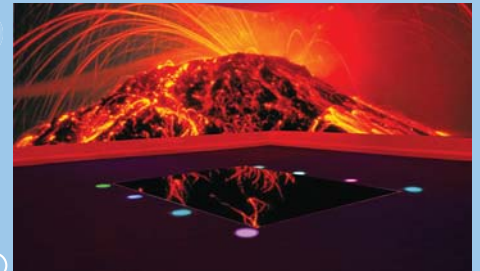

Exploring learning through the Immersive Learning Zone

The OMi Immersive Learning Zone enables learning that is...

- Immersive and interactive – a multimedia, sensory experience which encourages movement and kinaesthetic learning.
- Engaging – gesture-controlled intuitive technologies involve learners directly in the learning experience and build learner confidence through play and exploration.
- Creative – fully customizable, simple user interfaces enable teachers and learners to create their own applications, providing new opportunities for multimedia authoring, for sharing learner outcomes through interactive installations, supporting problem-solving, thinking skills and critical self-review.
- Cross-curricular – content can be adapted to support learning across all curriculum areas, abilities and Key Stages.
- Autonomous – learners take responsibility for their own learning and develop their own rules for group interaction.
- Inclusive – encourages users of all ages, abilities and experience to participate.
- Collaborative – supports effective group participation.
- Motivational – enhances self-esteem and encourages positive behaviour.
- Transformational – OMi technologies enable deep-level learning and transformation.
- Fun!

The OMi Immersive Learning Zone also...

- Promotes language development – multisensory applications develop speaking and listening skills, make language learning fun and memorable while supporting experimentation.
- Unlocks hidden potential, in particular for pupils with special educational needs.

Technologies

omiBeam

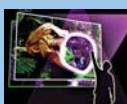

An interactive lighting system consisting of light beams that control sounds and visuals effects within the Immersive Learning Zone. Just “break” a light beam to interact....

omiVista

A floor projected gesture-controlled interactive system that responds to movement using camera tracking software for fun and flexible learning.

omiReflex

A vertical surface interactive projection system allowing users to see themselves on the screen. Movement produces changes to the displayed graphics and sounds.
