Mobile plug & play  
Ready Gesture controlled Interactivity  
made content

omiVista Mobile is an interactive projection system that opens up a thrilling new world of immersive interaction. The system projects dynamic images onto the floor or any other light coloured horizontal surface, where users' movements and motion activate a host of audio visual effects and games.

Popular in schools and care settings, the system delivers hugely engaging educational & sensory experience to people of all ages and abilities.

sound... video... images... interaction...

- Fully portable – plug & play system!
- Extensive suite of content with over 100 customizable applications
- Easy content creation and customization – 2 training sessions provided!
- Ideal for 'play and learn'
- Stimulating, motivating and empowering
- Helps embed learning through interactive experience
- Encourages movement, team work and communication
- Supports independent and group learning
- Immersive and wholly inclusive

*"The omiVista is the best piece of equipment we have purchased. It engages the children, encourages movement, team work, communication and visual skills. Pupils with autism and PMLD especially benefit from using it. It certainly ticks the box for enjoy and achieve. It's great fun and we love it!"*

Judith Chamberlain, Head teacher,  
Lakeside School, Welwyn Garden City

omiVista mobile is powered by  **eyeclick** software, licenced for use in Education and Healthcare sectors and features watermarks.

omiBeam Mobile is a mesmerizing interactive lighting system where users simply move any part of their body into a beam of visible light to activate a fantastic range of audio visual effects. Every movement produces a corresponding real-time sound and or image. You can play the drums in a band, learn the alphabet or even venture out into space on a rocket journey.

sound... images...interaction...

The swivel mirrors make it easy to direct the omiBeams to a desired spot to harness the smallest of movements whether the user is; standing, seated, in bed or at floor level. omiBeam systems are successfully used in over 200 educational and care settings across the UK providing hours of fun packed learning and discovery.

- Fully portable – plug & play system!
- Extensive suite of content with over 50 pre-sets
- Easy content creation and customization – 2 training sessions provided!
- Wholly inclusive
- Helps improve understanding of cause and effect
- Ticks the box for “enjoy & achieve”!
- Stimulating, motivating, confidence building and empowering
- Helps embed learning through interactive experience
- Encourages physical movement
- Supports independent and group learning
- Ideal for wheel chair users!

#### New features

- Connect your own switches to access a wide range of sounds and images
- Connect a video projector to enhance the visual experience
- Expandable to control 8 additional omiBeams!
- Optional – connect and control your favourite sensory equipment

*"We have 7 omiBeam Mobiles and the benefits are fantastic; they are used by every student in the school"*

Heather Davies, Head teacher,  
Bridge Special School, Telford

## omiVista Mobile Package

Fully encased system includes: omiVista software licence, over 100 interactive applications, fully configured video projector, movement tracking system, multimedia PC and speakers, radio keyboard with integrated mouse and 2 training sessions.

## omiBeam Mobile Package

Package includes; omiBeam software licence, over 50 interactive settings, 2 omiBeam interactive light units, omiBeam control system with user interface, multimedia PC and speakers, a pack of reflective materials and 2 training sessions.

OMi specialise in the design, development and supply of gesture controlled interactive technology for the Education, Health and Leisure sectors.

### Training

OMi gesture controlled systems come with two on-site training sessions included in the price.

Following delivery our expert team will provide handover training; then when you are ready to move onto the next stage, we will come back and show you how to get the very best out of your system.

### Service & Support

All OMi gesture controlled systems are supplied with a 12 month back to base warranty.

To ensure systems continue to perform at their optimum level we recommend annual servicing. We will contact you just before the first anniversary informing you of the various options.
